Proposed letter to Brack Ducker at Columbia Falls

Re: Information Request re Arrcom Corporation,
Rathdrum, Idaho and the Anaconda Aluminum
Company, Columbia Falls, Montana

Dear Mr. Ducker:

Enclosed is a copy of a letter we received from the EPA requesting documentation concerning the transportation of hazardous waste to the Rathdrum, Idaho Oil Recycling facility. Also enclosed is a copy of my letter of August 26 to the EPA explaining that the requested documents are no longer with ARCO but should be with CFAC.

We assume that the EPA either has already sent or will be sending to CFAC the same information request. We ask that you let us know if you have any documents that are responsive and give us an opportunity to discuss with CFAC the proposed response before any documents are actually turned over to EPA.

Thank you for your anticipated cooperation.

Sincerely,
